

Setting up EZView app

1

- 1. Download the EZView app from the Apple App Store or the Google Play Store (depending on the type of device you are using).
- 2. Open the app, and click on the menu button (top left corner)

3. Click on **Devices**

4. Click on + Add

5. Click on Manual Add

6. Enter a device name, and an address (this can be an IP address or a DDNS hostname). Then click on **Save** (top right corner)

7. You should see your NVR in the device list; then click on the menu button.

8. Click on Live View

9. Click on the + on one of the squares

10. Click on the NVR you wish the live view, and then click on the camera/channel

11. You should see the camera is streaming. Repeat steps 9 and 10 to view additional cameras simultaneously.
